ing from the man wao deprecate the things they would represent by their use. What is the meaning of these words?

Do professed Union lovers resolve to reaist coercion? Do they understand that such things on the part of the United States would be coercion or invasion? If they do, their idea of preservation is exceedingly thin and airy, and their view of the Union as a family relation, would seem to be no regular marriage, but a sort of free love arrangement, to be maintained by personal attractions. In what consists the special sacredness of a State?

I speak not of the position assigned to a State in the Union by the Constitution, for that by bond we all recognize. If a State or country possess equals in territory and inhabitants, in what, as a matter of principle, is the State better than the country? Would an exchange of names be an exchange of rights upon principle? By what rightful principle may a state, being not more than the one-afticth part of the nation, in soil and population, break up the nation and then coerce the large division of itself? What mysterious right to play tyrant is conferred on a district of country with its people, by merely calling it a State.

Mr. Lincolu said he was not asserting anything, but asking questions for them to consider and decide in their own minds; what was right and what was wrong.

Goy. Morton being loudly called for, appeared and spoke congratulatory tones to the gathering, which was now immense. At 7 o'clock this evening the members of the Legislature paid their respects to the President elect, who is now holding a reception at the Bates House.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The acrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." their children."

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only entry from secondary correspondence. tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently vast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the

Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renowate To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. We are enabled here to offer the community a We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain other ever discovered for the

Fever and Ague is not alone the consequence of Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation. Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Coke, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cunz" expels the poison from the blood, and consequently eures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disaccumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
